WPC TERRACES

WPC TERRACES

A beautiful terrace with virtually no maintenance? Thanks to WPC material, which replaces classic wooden boards, you too can have such a terrace! WPC outdoor terraces will be appreciated by anyone who does not enjoy frequent sanding, painting or oiling of boards. Treat yourself to the perfect perfect terrace in imitation wood and with minimal maintenance.

Minimal maintenance and color-fast material that resists UV radiation

The investment will return to you through the saved time and costs that you would spend on renovation and maintenance

The surface of WPC terraces is safe and non-slip

WPC does not warp due to the weather or catch mold

High load capacity

It is not subject to natural influences

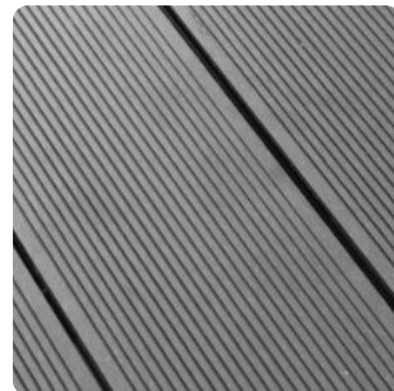

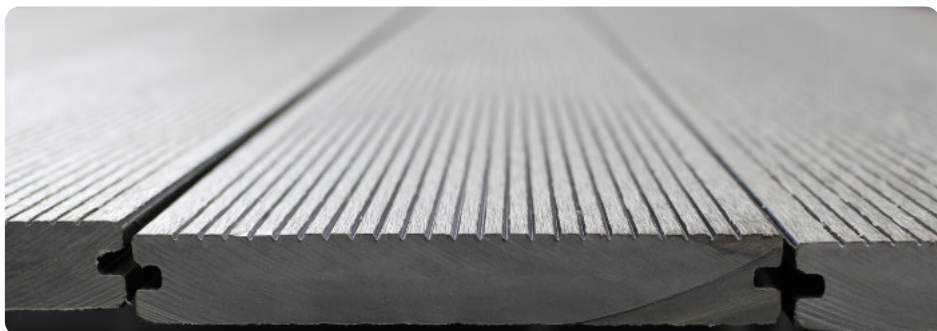

Long durability of the material

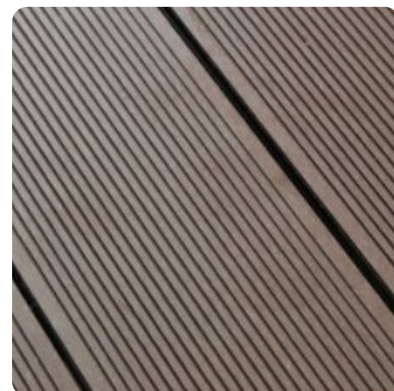

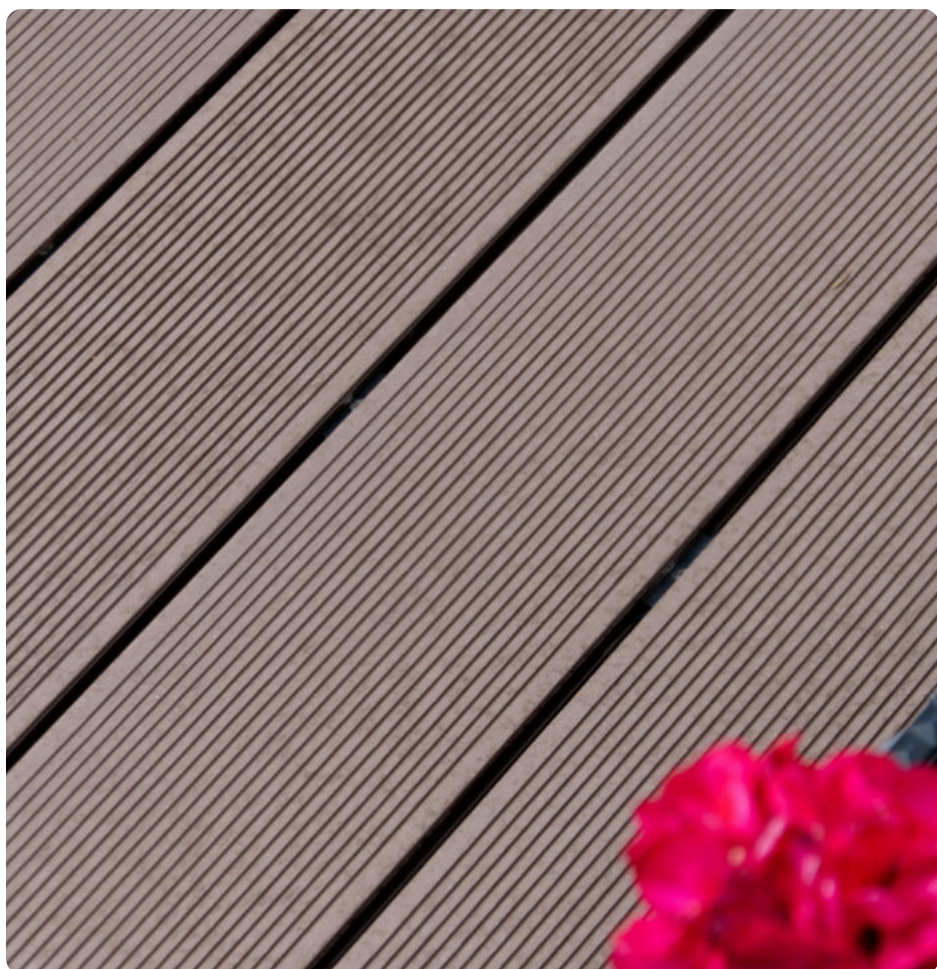

Simple assembly
