DESIGN ACOUSTIC PANELS

# DESIGN ACOUSTIC PANELS

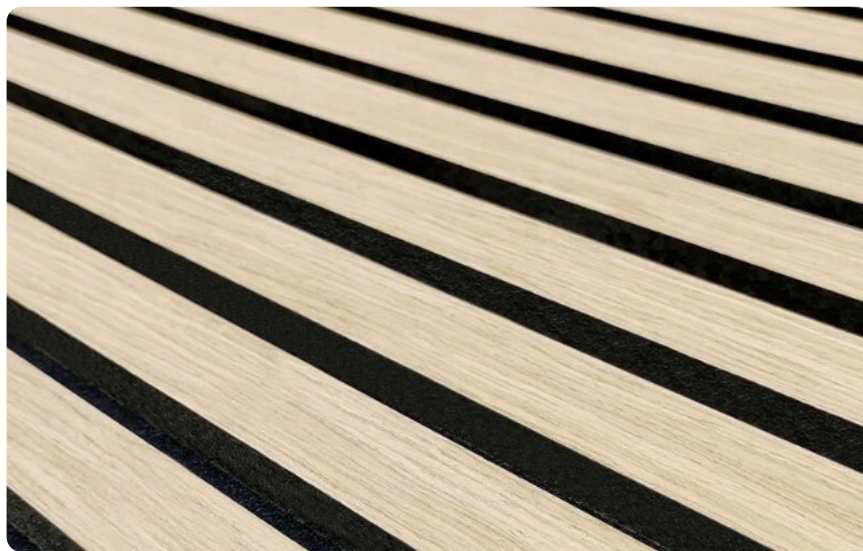

Acoustic wall panels are not only a design addition to the interior, but also excellently eliminate echoes and thus improve the overall acoustics in the room. The panels are definitely not only intended for professional recording studios, but also for conference rooms or your home. Their installation is also very simple and you can do it yourself.

**Eliminates reverberations or echoes in different rooms**

**A great design accessory**

**It can also be fixed to the ceiling of the room with the help of screws**

**Simple and easy maintenance**

**Easy assembly**

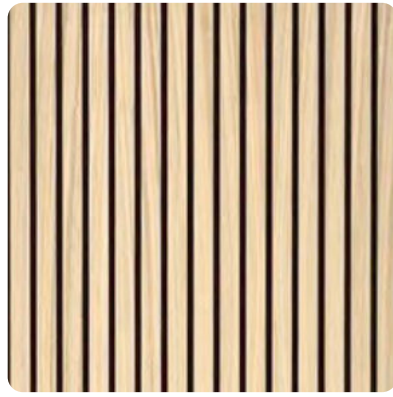

**Eliminates unwanted echoes**

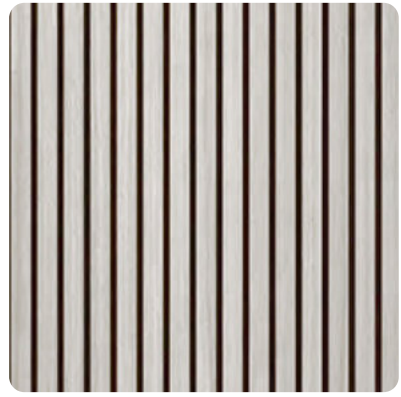

**It can also be fixed to the ceiling**
